About us

Anffas Onlus Broni Stradella is an Italian non-profit organization founded by parents/relatives of disabled people to take care and protect their fundamental rights.

We operate, since late 1971, in the so called “Eastern Oltrepò” area, which is located in Italy, in the South-East side of Lombardy region.

What we do

In the past years we carried out two Social-Health Communities, in Stradella as well as Broni (Pavia province, Italy), for 20 disabled persons who need continuous assistency as they don't have any relative who could take care of them. We also created a small Emergency Center in Stradella, with 4 bed places, to manage any sort of emergency situation or relief care need. Furthermore, through our Reception and Information Service (S.A.I.) we try to meet any need of help and support from the families, especially in critic situations and during the evolution at different stages of life.

Our new project

Nowadays we want to fulfill an ambitious project in a centrally-located building (Stradella Viale Gramsci, 32). This is planned to be:

- A multifunctional structure which offers services to disabled people;
- A new low-density health community for disabled who could live in a protected environment in which to recreate a socializing familiar dimension;
- A living environment offering solutions for an independent life;
- An “independent life gym” – for disabled people who want to try a gradual process of living on their own through temporary residence.

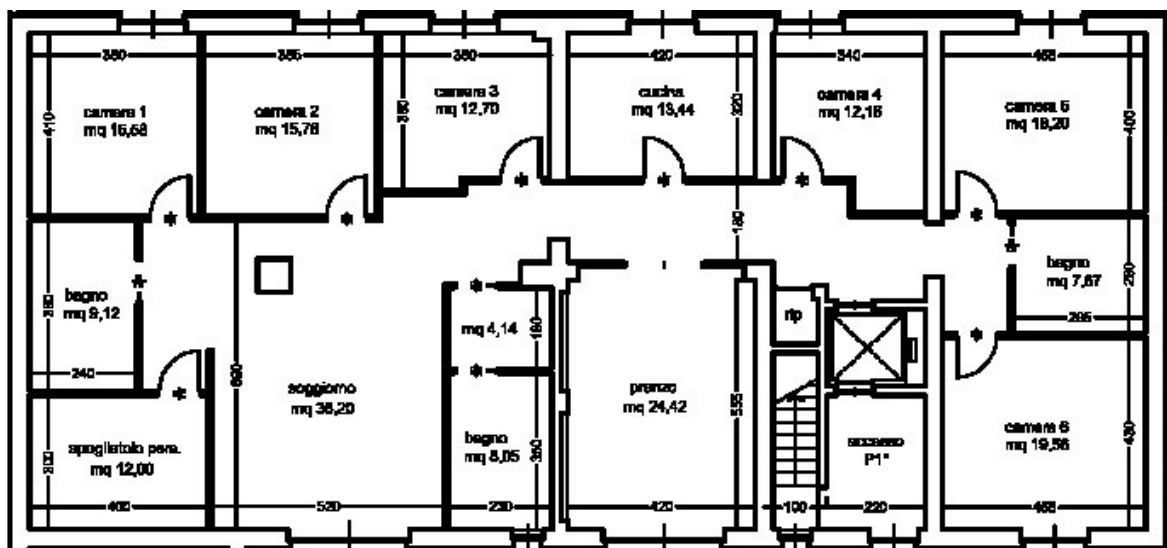

How is it now:

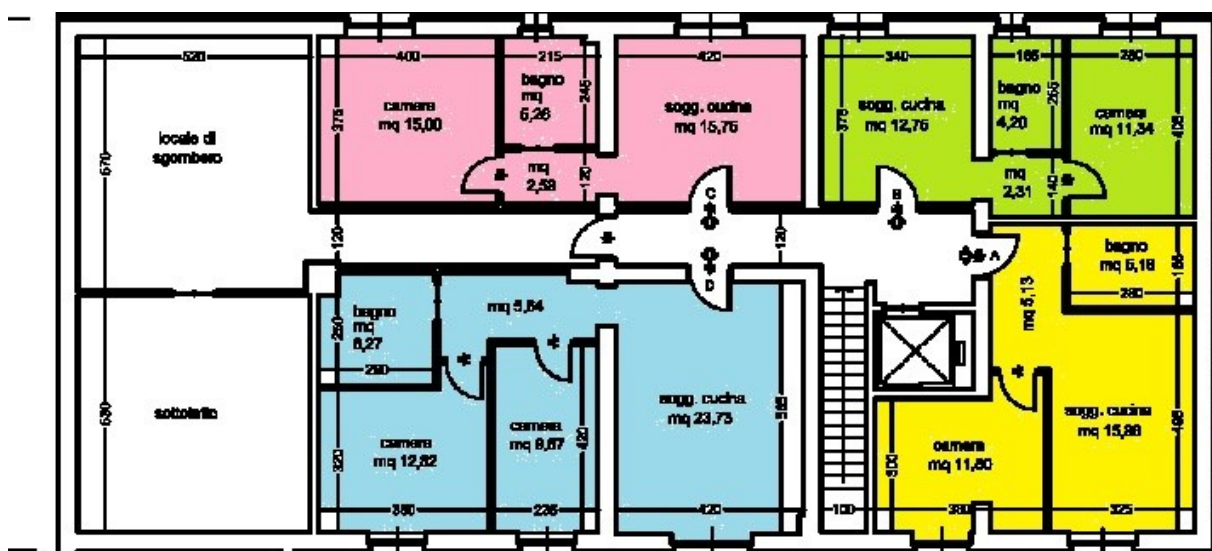

How it will be:

On the ground floor a community accommodation for 10 people

On the first floor 3 two-room apartments (pink-green-yellow) for independent living and the “Independent Life Gym” (blue)

The financial plan:

The purchase of the property took place on June 7th, 2018 and the financial coverage was insured, for a part of the amount through the activation of a loan granted by UBI Banca, the remaining by using available funds from the Association.

The forecast of the costs for the restructuring of the first lot, the side of the building that will host "**Independent Life**" Project related services, which began on 15th October, 2018, is about € 700,000.

The objective:

Collect from members, private citizens, traders, artisans, entrepreneurs, professionals, private and public institutions

€ 350,000 within the end of 2020.

YOU CAN CONTRIBUTE TO FULFILLMENT OF OUR PROJECT BY:

making a bank transfer to IBAN:
